

STATE HOUSE
LUSAKA
REPUBLIC OF ZAMBIA

RECOMMENDATION OF HHDF PROGRAMME MANAGER

MR DANIEL JINNEFÄLT

Human Health Development Foundation is a non-governmental organization aiming at supporting people in developing countries. The imperial object of the programme is to attain sanitation and good drinking water quality, sanitation for the good health of the Zambian people living in rural areas and initiation of incentives for a sustainable economy in rural areas through resistant cash crop agriculture business demonstration farms.

As mentor of this fine programme, I, Thandiwe Chilongo Banda, would like to recommend Mr Daniel Jinnefält as HHDF Programme Manager from 2005 for his outstanding administration and accomplishment to reach all levels and administrative bodies of the Zambian society as well as rural people.

Mr Jinnefält has throughout presented great capacity in leadership, handling the development and implementation of the HHDF programme, based on his academic background as well as inter-cultural understanding.

He has also shown great ability to interact in rural as well as local and national governance.

Mr Jinnefält has created good cooperation within Zambia with NGO partners, local councils, provincial governance and state officials.

He has, not the least, shown strong commitment for the common people of Zambia as well as a never-ending force to share his knowledge, recourses and leadership capacity with his co-workers.

I hereby fully recommend Mr Jinnefält for any kind of responsibility that he would challenge. Mr Jinnefält will be an asset to any position where he will be taking part as a committed person and colleague.

I will gladly stand as reference in case of need of such an arrangement.

Yours Sincerely,

THANDIWE BANDA (Mrs)

First Lady of the Republic of Zambia
